About Me

- A results-driven Flutter and Spring Boot Developer experienced in building scalable and secure mobile and backend applications.
- Skilled in cross-platform app development, cloud-based systems, and real-time data workflows.
- Built end-to-end solutions like mess management, business networking, and medical appointment platforms using Flutter, Spring Boot, Firebase, ReactJs, and Azure.
- Strong authentication, REST APIs, cloud deployment, and database design, with a focus on clean architecture and high-performance user-centric apps.

Education

2024 - 2026
MASTERS OF COMPUTER APPLICATION - 8.52

MIT World Peace University, Pune, Maharashtra

2021 - 2024
BACHELOR OF COMPUTER APPLICATION - 8.36

C. B. Patel computer college (Under VNSGU), Surat, Gujarat

Skills

- Java
- Dart
- Spring Boot
- Spring Framework
- Flutter
- Git & GitHub
- Android Studio
- VS Code
- IntelliJ IDEA
- Postman
- Azure
- Firebase
- MySQL
- Workbench

Exprience

ByteCraft Studios - Flutter Developer Intern

Remote - Jan 2026 - Present

- Working on the development of mobile applications using Flutter framework.

Freelance Project

Programmer Prodigies - Flutter Developer

Surat, Gujarat - 2024

- Built a Flutter app with Firebase for secure study-material sharing, featuring authentication, cloud storage, and anti-screenshot privacy.

University Project- Flutter Developer

Pune, Maharashtra - Oct 2025 - Present

- Heading Flutter app development for university internal use, delivering essential functionality, secure workflows, and a reliable multi-role user experience.
- Play store :- Link
- App store :- Under review

Projects

MIT World Peace University, Pune

"Daily Dine Pro" | Flutter, Spring Boot, Firebase, MySQL

- A full-stack Mess Management System to automate meal subscriptions and tracking for mess owners.
- Features include QR-based meal validation, Firebase authentication for multiple roles, real-time admin analytics, and a robust backend with secure RESTful API endpoints.

MIT World Peace University, Pune

"Business Sehyogi" | Spring Boot, React, Flutter, MySQL

- A platform connecting aspiring entrepreneurs, reducing networking time and boosting collaboration success by 20% to 30%.
- Developed and deployed a scalable system ensuring 24/7 availability and seamless performance.

C. B. Patel Computer College, VNSGU

"Arogya Sair" | Flutter, Firebase

- Led the development of a mobile app that streamlined medical appointment booking, reducing patient wait times by 30%.
- Built a real-time collaborative platform with hospital search, appointment scheduling, and live status updates.

Certifications

- Master Java, Spring Boot, Spring Security, Spring AI, Docker & Microservices (Ongoing)
- Flutter and Dart: Developing iOS, Android, and Mobile Apps- Passed with 92.95%
- React Native by Meta
- Postman API Fundamentals Student Expert
- Java Data Structures & Algorithms + LeetCode Exercises
- Git for Beginners
